Code less to achieve more

We understand the challenges of software development and create great opportunities for you. Our narrow focus on PHP and a proven-track record with 100,000 programming hours can ease the burden of your daily tasks and get you back on track. No hassle and time difference. Your code carefully managed and delivered on time. We've done this before and know how to put it to work for you too.

QUICK FACTS

- Six year focus on PHP.
- European culture and attitude.
- Established clients.
- Presence in Scandinavia and the Netherlands.
- Agile software development methodologies.
- University level qualifications.

Technologies

PHP + CakePHP + MySQL.

Our multi-skilled team does backend tasks in other technologies: C/C++, .NET (C#), Perl and Shell Scripting.

Our company

We are based in [Serbia](#), a two-hour flight from almost any destination in Europe. Since inception in 2001 by Sam Nurmi, a Swedish entrepreneur selected as one of the 25 most promising Web entrepreneurs in Sweden by the IDG magazine Internetworld, we have served the web hosting industry and web 2.0 companies.

Our growing team of 28 developers holds B.Sc. and M.Sc. degrees in computer science and software engineering. We are located in Nis, a university center in central Serbia famous for its talented programmers and engineers.

Management

Troxo is run by Mladen Stojanovic, voted the best IT entrepreneur by the Regional Chamber of Commerce and Industry in Nis.

With a number of complex projects behind, Mladen has developed a loyal client base and a new marketing strategy which resulted in the expansion of Troxo's customer base from Sweden to Norway and the Netherlands.
